SAJ-91 Guidance Tables

The two tables are intended to help the City of Cape Coral determine (1) if a Corps permit is required for marine improvements, (2) if the project can be issued with SAJ-91, and (3) if a checklist and spreadsheet are required to be emailed to NMFS.

Table 1: Freshwater Canals (Section 404 only)

Category of Work	Corps Permit Required? ¹	SAJ-91 ²	Submit to NMFS ³

¹ If a Corps permit is required then the activity is jurisdictional. You then have to determine if the project qualifies for SAJ-91.

² If the project requires a Corps permit it can be processed by the City if SAJ-91 is coded Green by the City or by the Corps if it is coded Red. If the activity does not require a Corps permit this column is Not Applicable.

³ If the project does NOT need to be submitted to NMFS: Do not complete the checklist or NMFS spreadsheet, or send the email to NMFS.

⁴ Yes, if it is coded Green. If it is coded Red, applicant submits to the Corps directly.
