

NOTICE

Due to new State regulations regarding the protection of Burrowing Owl burrows, it is necessary to contact Florida Fish and Wildlife to be sure you are following all required new regulations and have all required permits in order to proceed with your project.

This will need to be done when your Burrowing Owl Affidavit shows that the project property **and/or the adjoining lots** have owl burrows.

You can contact Florida Fish and Wildlife at wildlifepermits@myfwc.com, or directly at:

FL Fish & Wildlife Conservation Commission
Species Conservation Planning Section
Protected Species Permit Coordinator
620 South Meridian St, Mail Station 2A
Tallahassee, FL 32399-1600
(850) 921-5990
WildlifePermits@myFWC.com

They will assist you regarding the requirements for the owl burrows.

Please note: There have been no changes regarding Gopher Tortoise permit requirements.
