

Light-Weight Frame Truss Bulletin

Florida Statute, Section 633.027, and Florida Administrative Code, Section 60A-60.0081 require the owner of any commercial, industrial or multiunit residential structure of three units or more constructed of light-frame trusses, to install a symbol adopted by rule of the State Fire Marshal's Office. This rule establishes the dimensions, color, and location of the symbol to be applied to every commercial, industrial and multiunit residential structure of three units or more constructed of light-frame trusses.

Your building has been inspected and it has been determined that you are required to comply with this rule. Therefore State Fire Marshal rule(s) 69A-3.012 for Uniform Code buildings or 69A-60.008 for Minimum Code buildings requires you to install the required symbol(s) within 90 days of receipt of this notice.

Where the owner of the structure and the authority having jurisdiction disagree as to the use of light-frame truss-type construction within the structure, the owner shall be granted not more than 45 days to provide written verification from a licensed engineer or licensed architect; otherwise, the owner shall comply with the rule.

Lightweight Truss Floor

Lightweight Truss Roof & Floor

Lightweight Truss Roof
