

DCD

NOTICE TO CONTRACTORS

Effective Immediately

When submitting an NOC for a New Construction (Residential or Commercial) building permit, the general description of improvement line must include the following:

Site work (the verbiage “site work” is required on the NOC for the land/infrastructure), if applies.

Work being done (example: new construction of a building, addition to an existing building, Single Family Residence)

All related work (anything that is attached and/or required to complete a new construction or that is part of the building). The NOC does not have to itemize the scope of work as long as the building is under construction.

If the words “site work and/or all related work” are not included in the description, then the NOC will only apply to the building construction.

REMINDER: A COPY OF THE NOTICE OF COMMENCEMENT MUST BE POSTED ON THE JOB SITE AT ALL TIMES.

Thank you for your cooperation.
