Cape Coral retail pharmacy moves to new location

news-press.com

Acology Rx Compounding of Cape Coral has moved to a larger storefront at 131 Del Prado Blvd., Cape Coral.

The move followed a six month planning process that included permitting and relocation assistance from the Cape Coral Economic Development Office.

Acology is a licensed retail pharmacy that offers discount generic pharmaceuticals to patients without insurance. In addition to traditional pharmacy services, Acology also specializes in pharmaceutical compounding, which refers to the art and science of combining different drugs and suitable carriers to create a useable and unique final product for a patient's specific needs. This can be very beneficial to patients who require medications.

Acology has been open in Cape Coral since 2003.
