Roofing Guidelines – Commercial

Roofing Guidelines – Commercial (cont'd)

NOTES:

Roof over can only be done one time. (applying a layer of shingles on top of the existing layer of shingles)

Affidavits to be signed by **ONLY THE LICENSE HOLDER** for a Roofing Contractor, General Contractor, Building Contractor, Residential Contractor, a Florida Licensed Engineer and Registered Architect.

Contractors that sign the affidavit must be registered with the City of Cape Coral. Design Professionals must have a Business Tax Receipt for where their office is located.

Mechanical equipment must be placed on stands when reroofing. (HVAC Contractor will need a separate permit for HVAC)

WHEN CHANGING FROM SHINGLE OR METAL TO TILE:

1. All re-roofing permits going from shingle/metal to tile need to include engineer's evaluation verifying the existing trusses design conditions, including Live Load and Dead Load for Top and Bottom Chord in accordance with FBC Table 1604.3.
2. To be reviewed by Plans Examiner PRIOR to permit issuance.

Roofing Guidelines – Commercial
