

Commercial A/C Change-Out Permit Guidelines

*Commercial Change-Outs that are over 5 tons can be walked back to a Fire Plans Examiner for review. This is for a single unit installation or replacement, not combined 2 or more units that together equal over 5 tons.

For New Mini-Split Systems a separate Electrical Misc permit is required to be pulled by an Electrician

A/C Contractor or Owner/Builder may apply for permit

- Trade application.
- Two (2) copies of HVAC Data Sheet.
- Owner Builder Affidavit (if homeowner).
- NOC required if value is \$7500 or greater.

Description:

- Business name, Unit #, Scope of work (i.e. disconnect and reconnect (example; 53 roof top a/c units) and manufacturer
- **Route to: OFFICE USE ONLY**
If Fire Plans Examiner signs off on review -CSR to approve over the counter (CSR to stamp HVAC Data Sheet with application processed stamp; compliance to be verified at time of inspection).
If unable to locate Fire Plans Examiner to review – must route for review
- Any duct changes must be routed to Mechanical Review

Processing: OFFICE USE ONLY

- Type: Air Conditioning
- Subtype: Commercial

Inspections:

- Notice of Commencement (NOC) 10
- HVAC Final (042) 20
- Fire Final Misc Non 1 & 2 (remove if Fire N/A's the review)
- Varies depending on scope of work

Fees:

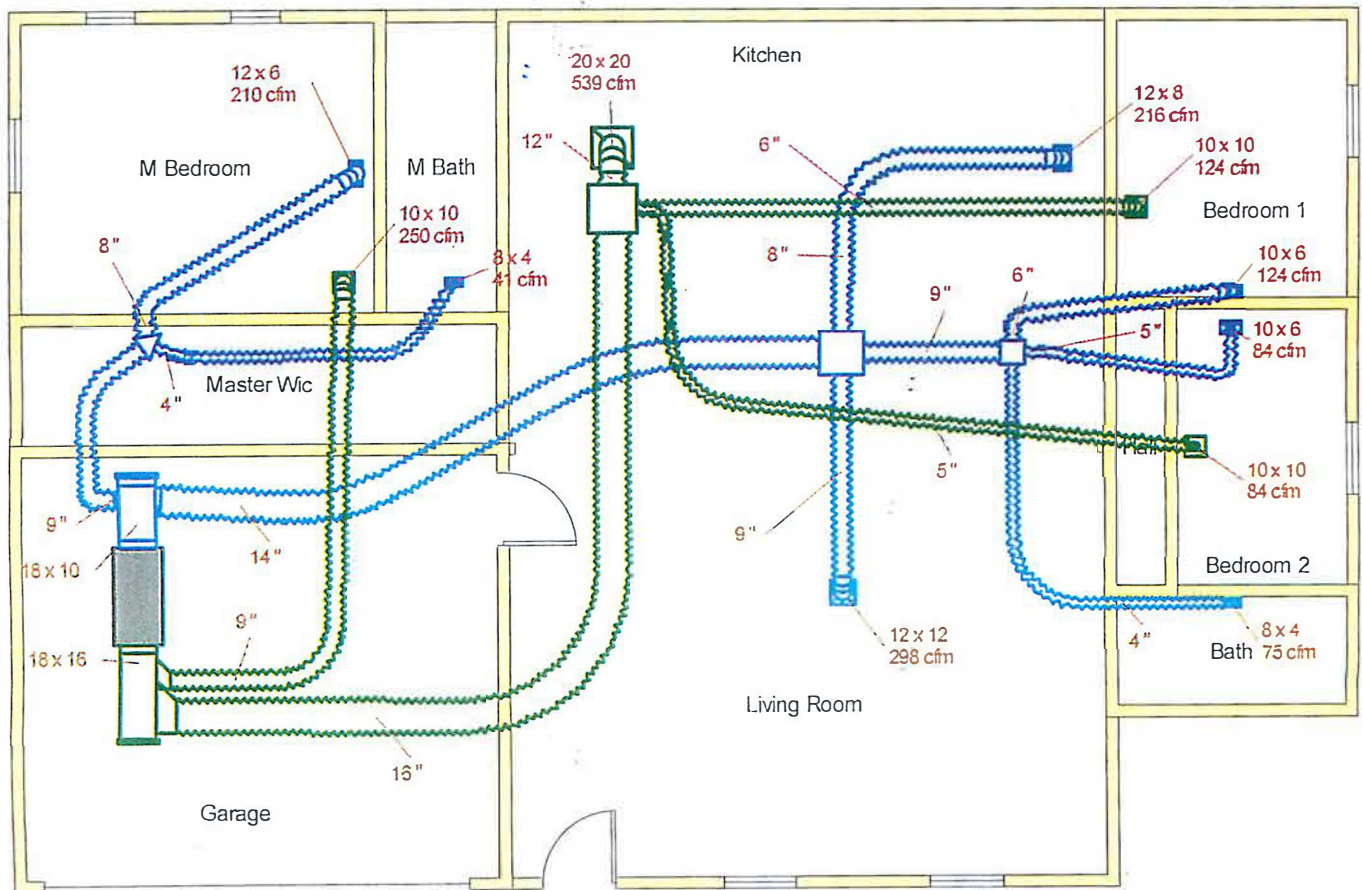

- A/C Change Out \$ 100.00
- Surcharge YES

Expiration:

- Six (6) months

Example of Manual D - Duct Drawing

Minimum Requirements:

- Floor Plan of business (rooms)
- Location of Air Handler
- Complete Layout of Supply Ducts
