

Shutter/Awning - Residential Permit Guidelines

(with or w/o electric)

**CONTRACTOR PERMITS ARE OVER THE COUNTER
OWNER BUILDER PERMITS GO THROUGH REVIEW**

***CGC, CBC, CRC, Hurricane Protection, Aluminum Structural and Aluminum Non-Structural contractors may apply for permit.**

***Shutters with Electric require an Electrical Contractor to submit subcontractor form to be attached to permit.**

For Contractors:

- Miscellaneous application
- NOC if value is \$2500 or greater
- Two (2) copies of the Floor Plan - plan noting location of shutters and the location of the required egress
- Two (2) copies of Shutter worksheet - includes the following: opening number, shutter type, opening width, opening height, fastener type, fastener spacing, FL or NOA #, Design Pressures
- Additional Required to be **on jobsite**
 - Manufacturer's Engineered Design/Installation Drawings (**for Inspections only**):
 - Provide copy of the Manufacturers engineering/Installation details and identify by circling, underlining the elevations, sections, installation details, fasteners, tables, charts, etc. which are applicable to the installation for this project. ALL engineering data sheets are to be provided in the original size of the drawings of 11"x17"
 - FL Approvals, NOA and Manufacturer specification sheets are available on line at www.floridabuilding.org.
