**61G4-15.021 Certification of Solar Contractors.**

(f) Roofing. Solar contractors may perform roofing work directly related to the installation of a domestic solar water heating system, solar pool heating system, or photovoltaic system, including cutting roof openings and penetrations, installing flashings, attaching equipment mounting brackets and solar panels. Such work shall be limited to an area within 18 inches of each roof penetration or attachment and shall be performed in accordance with National Roofing Contractors Association roofing practices.
